-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### Status

- 1) Responsive to communication(s) filed on 23 June 2006.
- 2a) This action is FINAL.                    2b) This action is non-final.
- 3) Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Art Unit: 1732

1. Applicant's election of Group I, claims 1-12 in the reply filed on June 23, 2006 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Margrave et al (see Example 1) in view of Glatkowski et al. The primary reference discloses the basic claimed process of forming SWNT films using a suspension of the nanotubes and a surfactant in a solution which is applied to a porous polymeric (PTFE) filter membrane, the solution removed and the resultant film doped with a halogen--fluorine. See Example 1, in particular column 15, lines 1-18 and 19-22. Essentially, the primary reference fails to explicitly teach that the film is optically transparent, that the membrane is dissolved (ie, instant claim 2) and the exact thickness, optical transmission and resistance of the film. Glatkowski et al teaches that such films would be optically transparent and it is submitted that one of ordinary skill in the art would have modified the method of the primary reference to make such a film dependent on the exact final use desired for the film. In addition, it is respectfully submitted that the parameters of thickness, transparency and resistance would also have been readily determined dependent on the exact use desired for the film.

Art Unit: 1732

Margrave et al teaches that the film would be removed from the porous membrane and it is submitted that removal by dissolving the membrane would have been obvious as such is a conventional way of providing stand-alone films.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mathieu D. Vargot whose telephone number is 571 272-1211. The examiner can normally be reached on Mon-Fri from 9 to 6.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Christina Johnson, can be reached on 571 272-1176. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
